Berlin, 22.03.2023

Application ID: 234
Submitted at: 24.01.2023
Business reference: -

Scientist in charge:

Vera Schmitt

Title/description of the research project/study:

"XAI Evaluation in the Domain of Automatic Desinformation Detection"

**Statement of Ethics Committee for self disclosure in
standardized questionnaire**

The aims and procedures of this study – as reported by the scientist(s) in charge in a standardized questionnaire – do not require a statement of the ethics committee.

Research participants

- are not expected to take emotional or physical risks,
- are not exposed to a high level of (physical or emotional) stress,
- are fully informed about the purpose and procedures of the study,
- do not belong to a vulnerable group (e.g. children, patients, persons with limited capability to judge)
- do not undergo fMRI (functional Magnetic Resonance Imaging) or TMS (Transcranial Magnetic Stimulation) during the course of the study

The scientist(s) in charge have agreed to protect data privacy, to fully inform participants about the purpose and procedures of the study, and to obtain informed consent prior to the study. This statement presupposes the truthful reply to all questions in the questionnaire and the responsible consideration of all ethical aspects of experimental study design with human participants.

Kind regards,

Ethics Commission Faculty IV
